THE ARBITRATION CONFERENCE

JUDGE GRAY MAKES OPENING ADDRESS AT LAKE MOHONK.

He Thinks the President Did Well in Withdrawing the Treatles Sent to the Senate as the Amendments Would Practically Have Defeated Their Purpose.

LARE MOHONE, N. Y., May 31 .- The anhual Lake Mobonk conference on arbitration was begun here to-day. The opening address was made by the president, Judge George Gray, who said in part:

ing address was made by the president, Judge George Gray, who said in part:

It is a significant sign of the progress that the cause of international arbitration has made in the ten years during which these conferences have been held that, in the discussion which preceded the refusal by the Benate to ratify any of the arbitration treaties sent to it by the President, no voice was heard in opposition to the principle of international arbitration, or, at least, none important enough or strong enough to gain a national hearing.

I would be lacking in frankness, however, if Jdinot say that there was plausibility in the reason assigned by the majority of the Senate for its refusal to ratify these treaties in the form in which they were presented. Without challenging the sincerity or intelligence of those who adhere to this view, we may indulge the tope that the frends of arbitration in the Senate tand we have no right to assume that all its members are not such will find a way by which the Government of the United States, through its treaty making power, may join the other civilized rations of the world in binding itself to submit "lifferences which may arise of a legal hature or relating to the interpretation of treaties existing between the two contracting patters, and which it may not have been possible to settle by diplomacy." To the permanent court of arbitration established at The Hague, without requiring the merely subordinate agreement as to procedure in each case to be ratified by two-thirds of the Senate.

To say that this cannot be done would argue a degree of imbecility and weakness in our Federal government that I do not believe exists. The treaty making power, as conferred by the Constitution on the President and the Senate, is without expressed limitation or restriction, and it is sarely broad enough to authorize a covenant by the United States to pursue a prescribed line of conduct with reference to future contin-

conduct with reference to litture contingencies.

I think, therefore, the President did well
to withdraw the treaties for the present,
without accepting the Senate amendments,
which would practically have defeated their
purpose. Here we may leave the matter, with
the reasonable assurance that the public
opinion and awakened conscience of our
country will not rest satisfied that the flovernment of the United States shall continue
to be alone among the signatory Powers of
the Hague convention in not responding to
this great movement to support and
strengthen the tribunal thereby established.

Judge Gray was followed by Dr. Ben-Judge Gray was followed by Dr. Bentamin F. Trueblood in an address on "The Year's Progress in International Arbitration." Dr. Trueblood said:

Year's Progress in International Arbitration." Dr. Trueblood said:

On Friday morning of our last year's conference here Mr. Smiley announced from this table that an arbitration treaty had just been signed between Spain and Portugal, and this was declared to be the eighth of the treaties of obligatory arbitration signed within the preceding eight months. Since that time twenty-two other treaties have been signed, bringing the whole number up to thirty. About half of these treaties have already been ratified and are now in force. All of the nations of Western Europe are signafories of some 25 cm and they are thus practically bound together in the bonds of peace for a period of five years. It is worthy of note that not a single arbitration has as yet occurred under the provisions of any of these treaties and the probabilities are that the five years will pass without any practical application of them. The spirit which has brought them into existence will probably prevent any serious disputes from ment by direct diplomatic methods.

The most noteworthy international pacific settlement of the year was that of the North Sea incident between Great Britain and Russia. But for the existence of the Hague convention and the tribunal which it created, it is difficult to see how the crisis caused by the firing of the Russian fleet on the British fishing vessels could have passed without a bitter and disastrous war.

WEEKLY CROP BULLETIN.

Most of the Country Experienced Unfavonable Temperatures. WASHINGTON, May 31.- The weekly bulletin of crop conditions issue i by the Weather

Bureau to-day says:

During the week ending May 29 most of the country experienced unfavorable temperatures, frost occurring during the early part of the week in the plateau regions, in most of the worthern tier of states east of the Rocky Mountains, and as far south as the interior portions of the Middle Atlantic States.

Rain interfered with farm work in portions of the South Atlantic and enst Gulf States, Tennessee and over an area extending from central Texas northward to South Dakota, and in portions of the Lake region.

At the close of the week rain was much needed in New England and the Middle Atlantic States, and sunshine and warmth in the South Atlantic and east Gulf States and the Missouri Valley. On the Pacific Coast the weather was cold and cloudy, with showers in northern California, Oregon and Washington.

Corn planting is largely finished expent

the weather was cold and cloudy, with showers in northern California, Oregon and Washington.

Corm planting is largely finished except in the Lake region. Onto Valley and northern portion of the Middle Atlantic States. Throughout the principal corn States germination and growth of corn have been very slow, owing to cool weather, and more than the usual a nount of replanting will be necessary. In the central Guif States part of the crop has been laid by. In this region corn has suffered considerably from overflows. In northern Texas, okinhoma, Arkansus and Tennessee core is anoth in need of cultivation.

Winter wheat has suffered slight deterioration in portions of the central and western districts, the winter wheat belt, but it continues promising in the eastern districts, an improvement being reported from Ohio. Reports of injury from rust continue from Kentucky, Tennessee, Missouri, Oklahoma and Texas, and rust and blackheads are appearing in Illinois. Generally the reports indicate that the wheat is heading low. In California the crop is maturing rapidly and an average yield is indicated. In Oregon and Washington growth has been rapid, too rank growth being reported from Oregon, where it is in danger of lodging.

Although freezing temperature occurred in the northern portion of the spring wheat region, spring wheat is reported as in good condition in Minnesota, and while frost in North Dakota proves injurious, the crop in that State has not been, seriously damaged. Over the southern portion of the spring wheat region the crop has made more favorable progress, although growth has been slow. On the North Pacific coast spring wheat is much improved in Washington, but in Oregon it has advanced slowly.

Throughout nearly the whole of the cotton belt cotton is in much need of cultivation and reports of abandoned fields are received from the Carolinas, Georgia, Alabana and Louisiana. Cood stands are generally reported, but touch planting is unfinished in northern Texas and planting is unfinished in northern Texas a

SUE LEITER FOR LOST LIVES.

Salts to Be Brought on Behalf of Foreigners killed at Zeigier.

CHICAGO, May 31. Joseph Leiter is to be the object of damage suits in connection with the explosion at his mine at Zeigler, Ill., on April 3. Suits for an amount aggregating probably \$150,000 are to be brought against him at the instance of three foreign Consuls. Attorney Frank Rockhold, acting in the interests of the three Consuls, has completed his investigation of the mine

disaster.

"Under the State mining law." said Mr.
Rockhold, "the company is liable to a fine
of \$5,000 for every life lost by accident.
Fifty-three lives were lost in a'l. In the
list of dead, however, there were twentyaree Americans. I shall attempt to collect
the full indemnity only for the lives of the
Shirty foreigners." Chirty foreigners.

H. Sylvester, acting Austrian Consul; Count Rozwadowski, the Italian Consul, and Baron Schlippenbach, the Russian Consul, commissioned Mr. Rockhold to make the investigation.

Mr. Leiter said he could prove the accident was not due to crimical carelessness.

New \$5,000,000 Machinery Company. TRENTON, N. J., May 31.-The Manning, Maxwell & Moore Company was incorporated here to-day with an authorized capital of \$5,000,000. The company is to manufacture and sell all kinds of machinery.
The incorporators are John L. Griggs of
Paterson, Colby M. Caester, Jr., of Greenwich, Conn., and Donald Holmes of Paterson. The principal office of the company

POLICE PICKETING UPHELD. Their Duty to Use the Ounce of Prevention Worth a Pound of Cure.

"The cure for crime, according to the doctrinaire, is punishment, beginning usually with arrest. The worth of prevention compared to cure is sixteen to one by a well known formula. If not accordingly, it is fact that in the long statutory recital of the functions of the policeman the duty to preserve the public peace and prevent crime comes first. So long as this duty is imposed upon him he must make his measures so strict that violations of the law cannot take place, and the exercise of a wide discretion in that regard will not be interfered with in this department."

In these words Supreme Court Justice MacLean takes issue with Justice Gaynor in the matter of issuing injunctions restraining the police from picketing places suspected of being poolrooms.

The effect of the decision is to refuse an injunction to Frank A. Phelan, who wants to stop the police from picketing his Four-teenth street premises. The police maintain that Phelan's apparent business is merely a cover for a poolroom.

ON HER SISTER'S EVIDENCE. Divorce Decree Against Mrs. Schultze Is

Granted to Walter Schultze. Supreme Court Justice Leventritt signed vesterday a decree awarding to Walter Schultze a divorce from Elizabeth Schultze, to whom he was married in 1888. Mrs. Schultze's sister, Josephine Satter, was the principal witness against her, and at the trial Justice Leventritt asked her why she had appeared to testify against her own flesh and blood. Mrs. Satter answered that she could not help it; that her sister's behavior had been so scandalous that it was impossible for the family to stand the

disgrace any longer. "Do you think your testimony and the divorce are going to help any?" asked Justice Leventritt.

"I don't know," answered Mrs. Satter. "I tried all I could with her, but it was no

Mrs. Satter's son Walter, barely 12 years old, was also a witness in Schultze's behalf. IN DEFENSE OF ROCKEFELLER.

Dr. MacArthur Replies to the Charges That His Gifts Are Tainted. In the current number of the Examiner, a Baptist weekly, the Rev. Dr. Robert Stuart MacArthur comes to the defense of John D. Rockefeller. He is the author of a long article which exonerates the Standard Oil Company, and criticizes those Baptist

clergymen who called Rockefeller's \$100,000 gift "tainted money." Dr. MacArthur says that he has investigated carefully certain transactions which have come in for denunciation from Rockefeller's critics, and has found that, when fully understood and fairly judged, they are in accordance with the highest standards

of commercial morality.

"Dr. Gladden * * * quotes the denunciation of an Ohio judge of a railroad officer for making a certain contract with an agent of the Standard. But Dr. Gladden forgets to state that this was nearly a generation to state that this was hearly a generation ago; that the Standard was never a party to the suit; and, what is more to the point, that this very contract was ordered canceled as soon as it was brought to Mr. Rockefeller's attention."

In the celebrated case of the Cleveland widow. Dr. MocArthur, says, the whole

In the celebrated case of the Cleveland widow, Dr. MacArthur says, the whole evidence shows that Mr. Rockefeller conducted himself like a Christian gertleman. Every specific act of alleged unfairness charged against Mr. Rockefeller occurred twenty or thirty years ago.

It is easy for a man of large allairs to become involved by those to whom he must delegate the details of his busi eas in transactions which he might not himself approve. President Tucker of Dartmouth has criticized Mr. Rockefeller. Yet Dartmouth had \$400.000 in the Northern Securities Company, which, it was proved, conducted business illegally.

"Shall Dr. Tucker be branded as a crimi-

"Shall Dr. Tucker be brauded as a criminal for that?" asks Dr. MacArthur. The rest is a eulogy of Mr. Rockefeller's character, his charity, his commercial genius in building up a great business through organizing for the lenefit of producer, consumer and laborer, and through the discovery of improvements and econ-

Ur. Macarthur adds that Blockefeller's wealth is grossly overestimated. He is not worth a billion, but only a fraction of that sum. In the last year he has given the increase of his wealth twice over to charity.

ARMITAGE MATHEWS'S TRIAL.

Jerome Wants to Hasten It-Remark About Bunch of Indicted Lawyers. District Attorney Jerome wants speedy trial: for Armitage Mathews, Abe Gruber's man in the Twenty-first Assembly district: John W. Wooten and Samuel I. Ferguson, all indicted for conspiracy and grand larceny in connection with the looting of William Weisell's estate of \$71,500. All the cases have been transferred from General Sessions to the Supreme Court, Criminal Branch, and to-day, before Justice Davy, Mathews, Wooten and Ferguson will be arraigned for pleading or for whatever motions they wish to make. District At torney Jerome will appear personally and will urge Justice Davy to fix an early date for trial. W. M. K. Olcott will appear for Mathews.

Mathews.

Abe Gruber has predicted that Mathews will be "triumphantly acquitted." When Mr. Jerome was asked yesterday about Mr. Gruber's statement that he, Gruber, was investigating the "receipt of certain moneys," and that Mr. Jerome was simply trying to block that investigation by indicting Mathews, Mr. Jerome said:

"I cannot get near enough to the level of such a man to have an altercation with him."

of such a hair to dave an altercation with him."

The activity displayed around the District Attorney's office yesterday afternoon suggested that Mr. Jerome had turned up something new in his investigation of David Rothschild's jadministration of the Weisell estate as temporary administrator. Rothschild was brought over from the Tembs and was questioned for two hours by Assistant District Attorney Kresel. Then there were a number of conferences between Mr. Kresel, Mr. Jerome and Mr. Rand. Mr. Jerome seemed to devote most of the afternoon to the case. When he was asked by the reporters what it all meant, he said: "There is nothing new—that is, nothing to tell."

Quizzed by the reporters, Mr. Jerome

said, apparently apropose of nothing:

"There are so many lawyers indicted around here that I was thinking of making up a special calendar of indicted lawyers and receivers of stolen goods and having them tried alternately."

BOY DRAGGED TO DEATH. The Halter of a Runaway Horse Was Tied to His Wrist.

NEW BRUNSWICK, May 31.-Clarence Smith, a bound boy, who has been living with Harry Gordon of the Cranterry Neck road, had been looking after the horses during Mr. Gordon's illness. The last horse he took out to the water trough last evening has a trick when he reaches the barn door of pulling lack. Clarence knew of this trick. Last night, in order to be sure that the animal would not slip him, he tied the halter rope to his wrist.

When the boy reached the Farn door the horse backed. The boy was thrown flat under the horse's feet. The animal starter is at full speed across the Larnyard to the fields near by designing the stunner boy after sin. In horse jumped or harrows, horse and other service in cost, to shreds. He was dead when a neighborstoned the horse. with Harry Gordon of the Cranter y Neck
